REAL PROJECTS

Empowering students and professionals through real-world engineering

REAL PROJECTS

ENGINEERING IN PRACTICE

Bridging industry and academia

Real Projects is AFBE-UK's learning forum and workshop series, connecting academic knowledge with real-world engineering practice. Through technical talks and interactive discussion, it brings engineering challenges, emerging developments and professional experience into focus.

WHO IS IT FOR?

Students, early-career professionals and engineers seeking cross-sector insight, practical learning and professional connections.

REAL PROJECTS

LEARN • CONNECT • CONTRIBUTE

HOW IT WORKS

Our accessible lunch-and-learn sessions bring technical insight together with practical conversation.

01 TECHNICAL TALKS

Hear from professionals tackling real engineering challenges.

02 INTERACTIVE DISCUSSIONS

Explore different perspectives and put questions to speakers.

03 NETWORKING

Connect across disciplines, organisations and career stages.

TOPICS WE EXPLORE

Big data and safety assurance • Entrepreneurship • Biotechnology and biomedical engineering • Emerging technologies and engineering careers

GET INVOLVED

Attend • Speak • Host • Sponsor
